WORK EXPERIENCE

Software Engineer *Oct 2025 – Present*
Clarkson Ignite – Makerspace (Clarkson University) Potsdam, NY

- Architected and deployed a secure, authenticated locker access system using Flask, MySQL, and Raspberry Pi 5.
- Built REST APIs to handle print job assignment, QR-based authentication, and box unlocking workflows. –
- Integrated Raspberry Pi and Arduino-controlled relay boards using serial communication.
- Improved system performance by 40% by leading a hardware upgrade from Raspberry Pi 3 (1GB) to Pi 5 (4GB). –
- Implemented logging, monitoring, and fault-handling to increase reliability across distributed locker stacks.

Network Engineer *Jun 2022 – Jul 2025*
LIQUID Intelligent Technologies *Harare, Zimbabwe*

- Diagnosed and resolved network-layer issues involving TCP/IP, DNS, DHCP, and routing protocols in enterprise environments.
- Configured routers and switches; automated recurring troubleshooting steps to improve efficiency.
- Documented system issues using ServiceNow and contributed to internal knowledge base.

Information Technology Intern *Jan 2021 – Dec 2021* **Liquid**
LIQUID Intelligent Technologies *Harare, Zimbabwe*

- Delivered first-line IT and network support, reducing repeat incidents by 20%.
- Logged, tracked, and escalated issues using ServiceNow to meet SLA targets.
- Assisted with installation and configuration of networking equipment.
